

Aqua-Fluid CC

8161

Special additive for water-based furniture paints and varnishes for application by means of a curtain coating machine, **for industrial use**.

PRODUCT DESCRIPTION

Product numbers

8161089010

General

Special solution for water-based furniture paints and varnishes to reduce base viscosity. Through the addition of Aqua-Fluid CC (8161), you can ensure that the product has a suitable consistency for the curtain coating process.

Application area

Additive for water-based coatings for furniture and interior finishing.

PROCESSING

Processing instructions

- Please shake / stir the product before use.
- The temperature of the product and object, and the room temperature must be at least + 15 °C.
- Mix Aqua-Fluid CC (8161) carefully into the paint/varnish while stirring continuously.
- Strong thinning effect.
- The drying behaviour of the coating system is not affected by the addition of Aqua-Fluid CC (8161).
- Paints/varnishes that have been mixed can be used as explained in the relevant technical data sheet.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result.
- Please follow our **ARL 150 - Working guidelines for water-based furniture coatings**.

Quantity to be added

Quantity to be added: up to a maximum of 10%.

The quantity to be added will vary according to the area of use and equipment used. Therefore please contact your sales representative.

Recommended viscosity of the paint/varnish for curtain coating:
50 - 70 seconds according to DIN 53211 (4mm flow cup, 20°C)

Cleaning the working equipment

With water immediately after use.

ORDERING INFORMATION**Size of trading unit**

11, 51

FURTHER DETAILS**Durability / storage**

Min. 1 year(s) in the original sealed containers.

Make sure the product is protected against moisture, direct sunlight, frost and high temperatures (above 30 °C).

Safety information

The product is only suitable for industrial use.

Further information on the subject of safety during transport, storage and handling as well as disposal can be found in the relevant safety data sheet. The current version can be accessed on the Internet at www.adler-lacke.com.
