

ADLER Clean Disinfectant Pro

8067

Alcohol-based surface disinfectant for professional and non-professional users

	PRODUCT DESCRIPTION
General	Alcoholic, ready-to-use surface disinfectant with bactericidal, fungicidal and virucidal effect. The product acts quickly and is completely residue-free.
Special properties and standards	 Authorisation as biocidal product for surface disinfection (product types 2 and 4). Active substance: 73,4 % (73,4 g/100 g) ethanol
	 EN 13624 (levorozide): effectiveness against fungi (Candida albicans) according to EN phase 2 / level 1 (suspension tests) 1, 5 and 15 min at high contamination
	 EN 13727 (bactericidal): effectiveness against bacteria (Staphylococcus aureus, Enterococcus hirae, Pseudomonas aeruginosa) according to EN phase 2 / level 1 (suspension tests) 1, 5 and 15 min at high contamination
	 EN 14476 (limited virucidal): effectiveness against viruses (Vacciniavirus, MVA) according to EN phase 2 / level 1 (suspension tests) 5 min at high organic contamination
	• EN 13697 (bactericidal and levurocidal): effectiveness against bacteria (Staphylococcus aureus, Enterococcus hirae, Pseudomonas aeruginosa) and fungi (Cabdida albicans) (suspension tests) 5 and 15 min at high contamination
	 The product is formulated without quaternary ammonium compounds and perfumes.
Application area	 For rapid, general disinfection of alcohol-resistant, non-porous surfaces and objects, especially in health care facilities (e.g. toilet seats, door handles, bedsteads, rescue vehicles), working surfaces in medical laboratories and surfaces in food and canteen kitchens, including those that come into contact with food or feed.
	 Synthetic materials and coated surfaces must be tested for material compatibility before use. In any case, do not use on plexiglass or polycarbonate.
