

## Pigmofix ST

8165

Texture paste for solvent-based coating systems by ADLER, for use in industry and trade

### PRODUCT DESCRIPTION

#### General

Pastes to give a textured effect for solvent-based pigmented PUR paints such as Aduro Pigmopur (2406), Aduro Pigmocolor 4in1 (2445) or 2C-PU-Multilack (4526). Ideal for achieving hard-wearing surfaces with a textured effect, suitable for all interior finishing projects.

#### Application area

Additive for solvent-based paints and varnishes, for use in furniture and interior finishing.

### PROCESSING

#### Processing instructions

- Please shake / stir the product before use.
- Carefully stir the Pigmofix ST (8165) into the unhardened and undiluted paint/varnish; then stir in the hardener and the required quantity of thinner.
- Pigmofix ST (8165) will result in a noticeable reduction in the degree of gloss of the original paint/varnish – depending on the amount used.
- You can paint over coats of paint/varnish with Pigmofix ST (8165) (without intermediate sanding, within 24 hours); the degree of texture will, however, be somewhat reduced. Suitable spray-on paint: e.g. Aduro Pigmotop (2514)
- The drying behaviour of the coating system is not affected by the addition of Pigmofix ST (8165).
- Paints/varnishes that have been mixed can be used as explained in the relevant technical data sheet.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result.

#### Quantity to be added

Max. 5 - 10% by weight relative to the quantity of paint or varnish  
The quantity to be added will vary according to the desired textured effect.  
Therefore please contact your sales representative.

### Cleaning the working equipment

With DD-Verdüner 8519 (8519) or Waschverdünner (8501) immediately after use.
