

Poly-Hardener 7517

7517

Hardener for 2-component polyester fillers and resins

PRODUCT DESCRIPTION

Product numbers

751700021030

General

Hardener component for use in **two-component polyester filler systems**. The product ensures reliable and uniform curing and is optimally matched to the corresponding polyester fillers.

Application area

Wood defects in furniture and interior finishing as well as for levelling metal surfaces.

PROCESSING

Processing instructions

- Immediately after adding Poly-Hardener 7517 (7517) to the paint component, blend in carefully.
- Mixed paints must be processed as specified in the corresponding technical data sheet.
- Do not close containers with hardened material.
- Any change in the processing sequence, environmental conditions, non-observance of instructions or the use of products not listed may have an unfavourable effect on the result.

ORDERING INFORMATION

Size of trading unit

30 g

FURTHER DETAILS

Durability / storage

Min. 1 year(s) in the original sealed containers.

Make sure the product is protected against moisture, direct sunlight, frost and high temperatures (above 30 °C).

Immediately seal the container to prevent humidity from penetrating.

Close opened containers well and use up the content as soon as possible.

Safety information

The product is only suitable for the industrial and professional use.

Further information on the subject of safety during transport, storage and handling as well as disposal can be found in the relevant safety data sheet. The current version can be accessed on the Internet at **www.adler-lacke.com**.
